

SEABOARD COAST LINE *SILVER METEOR*

—John Dziobko

The Atlantic Coast Line and Seaboard Air Line merged in 1967. At that time, passenger cars received extended SEABOARD COAST LINE letterboards with a new italic font and SCL logos. The roof/underbodies, now painted black, had reduced skirting, and were renumbered in ACL's 4-digit system. The SCL sleepers were transferred to Hamburg Industries (and leased back), the result being that HAMBURG replaced PULLMAN on the small letterboard panels, and car numbers were added to sleepers (on one of the other small letterboards). The PRR cars were pulled from the train after the PennCentral merger in 1970. The Coach Yard is offering a variety of models detailed as noted above to represent the *Silver Meteor* and *Silver Star* streamliners during this era, FACTORY pro-finished: lettered and painted per prototype in HO scale. See you dealer and make your reservations now!

1969-1971 SEABOARD COAST LINE letterboards (unless otherwise noted), deskirted
